

INXUBA
YETHEMBA
MUNICIPALITY

ANNUAL REPORT

2008/9

PART 1:

INTRODUCTION AND OVERVIEW

In these the last 3 will continue to remain priorities whilst the first 2 require continuous implementation

Municipal Financial Viability

Among key priorities in this KPA have been:

- Preparation of valuation roll which has been completed in time for implementation in July 2009
- Timely budget completion and adoption which was done
- Financial statements submission in time where indications were that they would be ready by August 31 2009.
- Revenue generation which continues to be a challenge to be addressed on a continuous basis
- Compliant Asset register will also continue to be a challenge

Good governance and community participation

The following major priorities were addressed

- Institutional development and transformation which resulted in a clear chart of organogram and identified gaps in numerical goals in EE
- Employee relations dealt with gaps in the requisite structures and needs of employees as a continuous process
- Good Governance and public participation dealt with functionality of governance structures with shortcomings identified to continue to be focus areas for following years
- Council and Committee Administration which will continue to be improved in the coming financial year
- Human Resource Management as the core business in administration will receive priority

B. THE YEARLY PROGRAM PRIORITIES' STATEMENT BY THE MUNICIPAL MANAGER

The financial year under review was a very busy one in particular as it was an election year, although these were taking place at National and Provincial level the pressure is always felt at the local level.

The program at local level is always guided by the 5 year Local Government Strategic Agenda which guide the Service Delivery and Budget Implementation Plan namely:

- Municipal Transformation and Institutional Development
- Basic Service Delivery and Infrastructure
- Local Economic Development
- Municipal Financial Viability
- Good Governance and Community Participation

Priority Areas were identified in accordance with the needs of the communities and ability of institution to implement them and most importantly covered the following.

Municipal Transformation and Institutional Transformation

- The completion of the current organogram and its schematic representation which has always been a challenge
- Future challenge/goal is to set numerical goals for our equity plan

Basic Service Delivery and Infrastructure

Two major priorities amongst others we had in this respect were:

- Roads and Infrastructure
 - We managed to achieve the targets we set for ourselves in this financial year within the limited MIG allocations
- Electrical Infrastructure
 - In electrical infrastructure we as well achieved our targets based on the allocations

Both these will continue to be our priorities as they contribute to social and economic wellbeing of the community

Local Economic Development

Areas of focus in this respect were which are reported to under the relevant sections are:

- LED strategy and incentive package development which have been completed
- Tourism Strategy Development which has also been completed
- SMME Support
- SPU support
- Agricultural Support

C.OVERVIEW OF THE MUNICIPALITY

2.1 Municipal Area

Inxuba Yethemba Municipality is situated in the Chris Hani District Municipality in the Eastern Cape Province. It is approximately 240km north of Nelson Mandela Metro. It is comprised of the former Middelburg EC and Cradock Local and Rural councils with their urban centres situated 100km apart. Cradock consists of suburb of Cradock, Lingelihle and Michausdal communities, whilst Middelburg has the Middelburg suburb with Kwanonzame Lusaka, and Midros communities.

The two urban centres of Cradock and Middelburg are fairly similar with well developed CBD's and fair infrastructure whilst a lot still needs to be done in the former previously disadvantaged communities. The rural areas of both towns are mostly commercial farms, with small settlements in rural areas of Fish River Mortimer and Rosmead.

The N10 National Road which is the vital economic link between Port Elizabeth and the North runs through Cradock and skirts Middelburg. The economy of the area is largely based on agriculture and tourism with small and medium enterprises, formal sector like government departments and finance and commercial institutions.

2.2 Geographic profile

The municipal area stretches over a geographical area of 11594.65 square kilometers comprising of a potentially arable area with a slope ranging from 0° to 12°, with the rest of slope above 12° being mountainous area that is not arable.

The area is characterised by harsh climatic conditions with day temperatures averaging between 20°C and 40°C and night temperatures between - 5°C and 16°C. The average annual rainfall is between 200mm and 300mm with north westerly and westerly winds being more prevalent.

Most of the municipal area is covered with shrub land and low fynbos. The veld type is typical Karoo vegetation which is ideal for stock farming. Inxuba Yethemba falls within the Great Fish River drainage system and its many tributaries. Cradock receives its water from the Gariep dam through a transfer scheme which is managed by the Department of Water Affairs and Forestry whilst Middelburg on the other hand

solely depends on its ground water. The present drought has thus a detrimental effect on water sources in Middelburg.

Inxuba Yethemba experienced extreme flood damage during the 70's and they still pose a potential danger. Veld fires are most common causing a threat to the agricultural sector. Drought is another major risk in the agricultural sector, which is important for the economy of the area.

2.3 Demographic profile

The demographic data used is derived from 2001 Census figures, the Demarcation Board and Community Survey 2007. It is worth noting that there exist huge discrepancies between this data and that from other sources including municipal records. It must as well be noted that for the 2006 local government elections the following ward boundaries have been altered, Wards 5, 6, 7, 8 and 9 hence this information might not exactly tally with current ward arrangement. Also ward 1 and 3 have exchanged numbers since the previous local government elections before 2006.

2.3.1 Population Distribution

Table 2.1

Population Demographics								
		Race					Gender (%)	
Ward	Population	African	Coloured	Indian	White	Other	M	F
1	5858	77.5	17	0.0	5.4	0.1	46.6	53.4
2	8201	5.3	94.4	0.1	0.1	0.1	46.4	53.6
3	5688	56.7	9.5	0.1	33.5	0.2	49.2	50.8
4	8424	36.4	23.9	0.1	39.4	0.2	50.1	49.9
5	2427	99.0	0.7	0.0	0.0	0.3	46.5	53.5
6	5929	45.1	36.9	0.0	17.8	0.2	55.9	44.1
7	9611	96.7	3.2	0.0	0.1	0.1	45.6	54.4

8	8205	15.2	84.3	0.1	0.3	0.1	46.7	53.3
9	5954	93.6	6.2	0.0	0.0	0.2	46.6	53.4

Source: Census 2001

The 2001 Census statistics suggests a population of 60296 for the whole of Inxuba Yethemba. More than 80% of the population is concentrated in the towns of Cradock and Middelburg with the rest scattered throughout the rural area. As is comparable with National and Provincial Statistics women are in the majority at 51.8% compared to 48.2% of men.

2.3.2 Demographics trends and migration patterns

With the building of formal settlements and retrenchments in the farms there is a continuous influx of people into the urban centres from the rural area. Also worth noting is the ever increasing number of immigrants from the African continent.

2.3.3 Age Profile

Table 2.2: Population in Inxuba Yethemba: 1996 to 2007

Source: Quantec (2008)

- There are just more than 58,000 people living in IYM¹, with Cradock being the largest urban area.
- More than 50% of the population is younger than 25 years of age

- There has been a decrease in the population between 2001 and 2007, with population growth at -0.6% p.a.
- Most residents in IYM live in Lingelihle, and Michausdal
- There has been a decrease of nearly 2,000 persons living on farms outside of the main towns in IYM between 1996 and 2007
- The population in Middelburg has increased by nearly 2,500 persons over the past 12 years

The population density is low at about 5 persons per km²

Statistics SA's 2007 Community Survey reports that the actual population in IYLM is about 48,400

2.4 Socio Economic profile

Inxuba Yethemba forms part of the Karoo Midlands, which is predominantly an agricultural area. The tourism industry also contributes significantly to the economy of the area. Both these sectors remain not to reflect the demographics of the municipality in terms of their benefits as they continue to be monopolized by the previously advantaged members of our community.

Labour Force Participation and Unemployment

Table 2.18 Labour force participation in IYM: 2001 to 2007

Key Features:

- A greater percentage of the labour force in IYM is employed in 2007 than was the case in 2001
- The actual unemployment rate in IYM has decreased from 43% to 38% between 2001 and 2007
- The Not-Economically Active population in IYM has shrunk by 6% between 2001 and 2007
- Employment in IYM is significantly higher than in CHDM
- Employment declined by 1.7% p.a. between 1999 and 2003, but increased by 1.1% between 2003 and 2007
- Informal employment decreased significantly (5.2% p.a.) between 1999 and 2003.
- Skilled employment increased over all periods, but by nearly 3% p.a. between 2003 and 2007.

Source: Statistics SA (2001, 2007)

FigureError! No text of specified style in document.1: Growth in employment type in IYM: 1995 to 2007

Source: Quantec (2008)

Figure 2: Formal employment occupations in IYM: 2007

Source: Statistics SA (2007)

- More than 25% of formal employment is in highly skilled jobs
- Nearly a third of formal employment is in unskilled or semi-skilled positions

Figure3: Sector employment in IYM in 2007

- The sectors providing the most formal jobs are Government and Agriculture
- Employment in Agriculture has decreased by nearly 2% p.a. between 1995 and 2007
- Formal employment has increased in Trade, Finance and Business Services
- There was very little growth in government employment between 1995 and 2007.

Source: Quantec Easydata (2008)

Figure 4: Growth in employment in key sectors in IYM: 1995 to 2007

Source: Quantec Easydata (2008)

Figure 5: Distribution of household income in 2007

Source: Statistics SA (2007)

Figure 6: Change in distribution of household income between 2001 and 2007

Source: Statistics SA (2001, 2007)

Key Features:

- Households in IYM earn on average more than the average household in CHDM.
- More than 7% of households in IYM has no income, significantly lower than in 2001.
- About 50% of households in IYM had less than R19,200 income p.a.
- There has been a marked increase in household income between 2001 and 2007 in IYM. Only 20% of households in IYM had income of less than R9,600 p.a. in 2007, compared to 54% in 2001.
- About 4% of households in IYM earn above more than R307,200 p.a.

The major event which has affected the municipality in the financial year has been the National and Provincial Elections. Council activities had to be scaled down to a large extent during the period prior to the elections, as the politicians had to be given time to carry out their political responsibilities to prepare their constituencies for voting.

PART 2:

KPA ACHIEVEMENT REPORT

CHAPTER 1

HUMAN RESOURCE AND OTHER

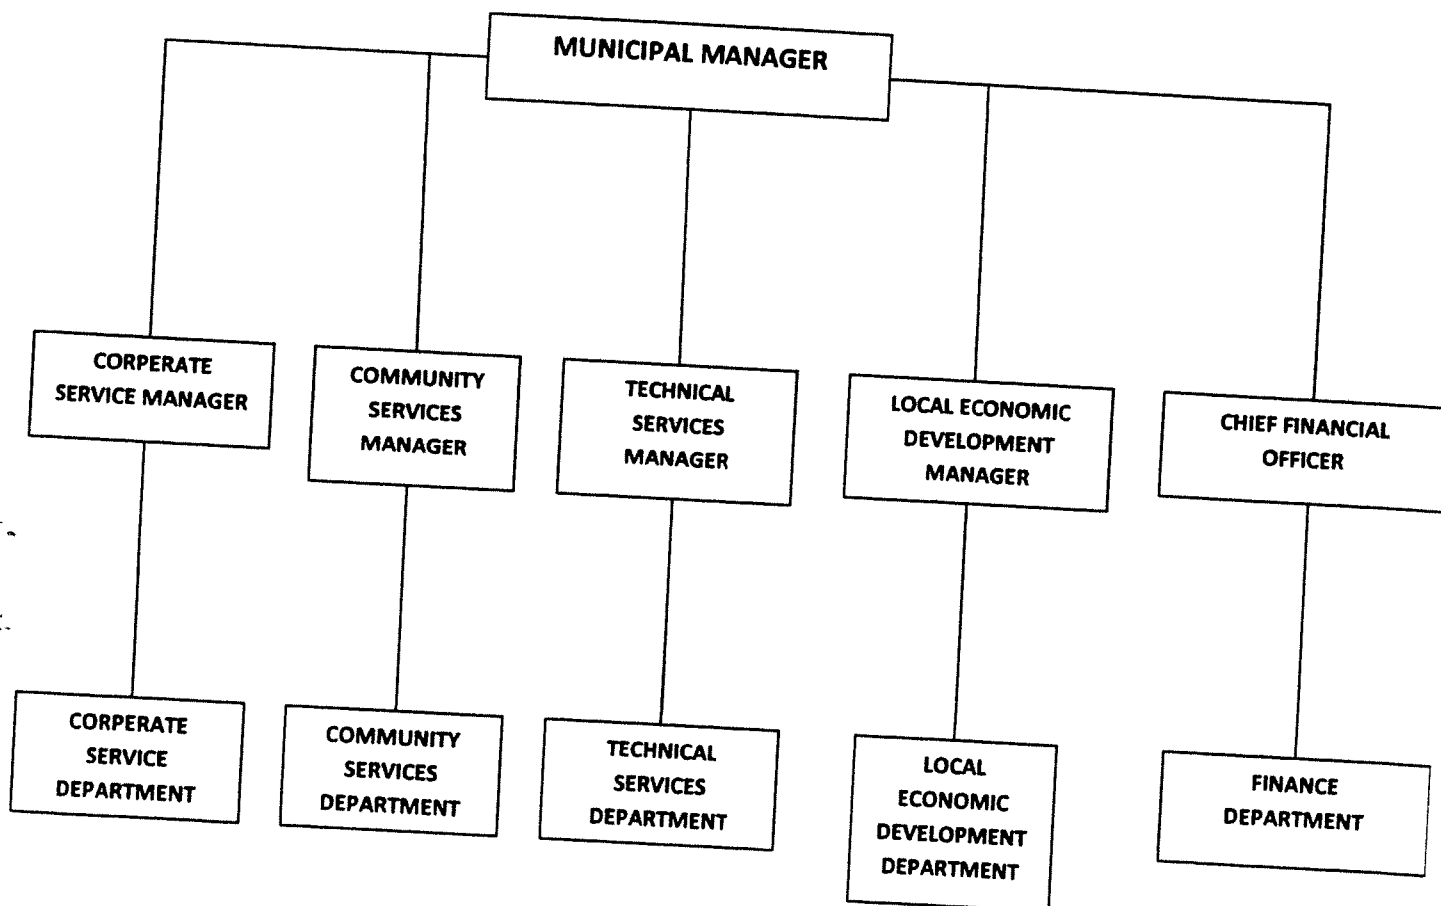

ORGANISATION MANAGEMENT

KPA 1

1.1 Presentation of the organizational structure

- Total number of approved posts in the municipality's approved organogram is 455
- There is currently 86 vacant posts
- The municipality administration is comprised of the following departments:
 - Corporate Services
 - Community Services
 - Technical Services
 - Local Economic Development
 - Finance
- Each of the departments is headed by a Section 57 manager on a signed 5 year performance contract
- Together with the municipal manager there are six section 57 managers and they have all signed annual performance agreement for the year under review.

Following is an overview of the high level organogram, the detailed organogram is added as an attachment.

1.2 Staff development initiatives during the Financial Year

The following types of training have been attended in the financial year with some still continuing:

- **Executive Leadership Development (University of Fort Hare)**
 - Councillor
 - N.P Zonke
 - Official
 - D. Morose-Msali
- **Municipal Finance Management (University of Pretoria Continuing Education)**
 - Councillors
 - P. Perring
 - T Nabo
 - N. Zonke
 - Officials
 - L. Gunuza
 - Z. Kali
 - H. Leonie
 - I. Mowers
- **Municipal Law & Administration (University of Fort Hare)**
 - Councillors
 - P. Fose
 - L. Davids
 - N. Geveza
 - N. Swartz
 - Officials
 - C. van Deventer
 - E. Meyers
 - V. Pike
 - N. Myo
- **Certificate Program in Management Development for Municipal Finance (Wits Business School)**
 - Officials
 - T. Sigenu
 - L. Jojiyasi

There is no Human Resource Development Plan in the municipality; we had discussions with the Department of Local Government and Traditional Affairs in the province seeking assistance to develop this. The Workplace Skills Plan is completed and sent to Department of Labour every year in June.

Key HR statistics per functional area

a) Full time staff complement per functional area

1 MM/Section 57 and Line Managers

	Approved positions	Number of approved and budgeted posts per position	Filled posts	Vacant posts
1	Municipal Manager's Office and Corporate Services	30	30	3 not budgeted for
2	Technical Services	166	166	0
3	Finance	39	38	1
4	Community Services	187	171	16
5	Local Economic Development	29	23	6

2. Technical staff registered with professional bodies

Technical Service	Total number of technical service Managers	Total number registered in the accredited professional body	Total number pending registration confirmation in the accredited professional body	Total number not yet registered in the accredited professional body
Civil Engineering	2	1	0	1
Electrical	1	0	0	1

Engineering				
Water	1	0	0	1

3. Levels of education and skills

Total number of staff	Number of staff without Grade 12	Number of staff with Senior Certificate only	Number of staff with Tertiary/accredited professionals training
369	This information is not readily available as our system does not provide for it. It needs to be done manually; therefore with time given we are unable to undertake this exercise.	This information is not readily available as our system does not provide for it. It needs to be done manually; therefore with time given we are unable to undertake this exercise.	This information is not readily available as our system does not provide for it. It needs to be done manually; therefore with time given we are unable to undertake this exercise.

4. Trends on total personnel expenditure

Financial Years	Total number of staff	Total approved operating Budget	Personnel expenditure (salary and salary related)	Percentage of expenditure
2006-2007	403	45 373 867	42 831 380	58.84%
2007-2008	378	43 657 3671	43 891 386	61.66
2008-2009	369	47 978 339	46 513 725	38.90

5. List of pension and medical aids to whom employees belong (please add if necessary)

Names of pension fund	Number of members	Names of medical Aids	Number of members
Cape Joint Pension Fund	8	SAMWUMED	64
SALA Pension Fund	37	LA Health	29
Cape Joint Retirement Fund	88	Bonitas	31
SAMWU Provident Fund	206	Key Health	13
SANLAM Retirement Annuity	22	HosMED	71

1.3 Senior officials' wages and benefits

Section 57 Remuneration Packages

As per employment contract the section 57 managers receive an all inclusive package.

Employee	Package 2008/9	Package 2007/8
Municipal Manager	R590 808	R545 520
Chief Financial Officer	R501 636	R463 188
Corporate Services	R501 636	R463 188
Community Services	R501 636	R463 188
Technical Services	R501 636	R463 188
Local Economic Development	R501 636	R463 188

1.5 Implementation of the Performance Management System (PMS):

The PMS framework was developed and adopted by Council in January 2009. It is being implemented institutionally as well as individually by Sec. 57 employees. It has not yet been cascaded to levels lower than Sec. 57 employees

1.6 Annual performance as per key performance indicators in municipal transformation and organizational development

Indicator name	Total	Achievement	Achievement	Comments
----------------	-------	-------------	-------------	----------

		number of people (planned for) during the year under review	level during the year under review	percentage during the year	on the gap
1	Vacancy rate for all approved and budgeted posts;	455	373	82	Lack of Funding
2	Percentage of appointment in strategic positions (Municipal Manager and Section 57 Managers)	6	6	100%	N/A
3	Percentage of Section 57 Managers including Municipal Managers who attended at least 1 skill development training course within the FY	6	3	50%	Other managers will attend in the next FY
4	Percentage of Managers in Technical Services with a professional qualification	4	4	100%	N/A
5	Percentage of municipalities within the district area that have a fully functional Performance Management System (DM only)	N/A	N/A	N/A	N/A
6	Percentage of staff that have undergone a skills audit (including competency profiles) within the current 5 year term	0	0	0	No skills audit was undertaken as there is still outstanding training in the previous audit
7	Percentage of councillors who attended a skill development training within the current 5 year term	18	18	100%	

8	Percentage of staff complement with disability	System not equipped to provide this information. It has to be done manually	N/A	N/A	We need a system that is more HR inclined than the current one which is biased more towards finance
9	Percentage of female employees	System not equipped to provide this information. It has to be done manually	N/A	N/A	We need a system that is more HR inclined than the current one which is biased more towards finance
10	Percentage of employees that are aged 35 or younger	System not equipped to provide this information. It has to be done manually	N/A	N/A	We need a system that is more HR inclined than the current one which is biased more towards finance

Major challenges and remedial actions in regard to human resource and organizational management

Major challenge faced by the municipality is lack of funding as it relates to filling of posts. This in essence will translate into effective service delivery to communities. It is also a challenge that the two units sometimes duplicate functions. Remedial action in regard to human resource is to get adequate funding to fill some critical posts, for example, we need to have a Supply Chain Management Section to be able to deal effectively with procurement and thereby assist in fast tracking service delivery. This is but one example of our situation. We do not even have a PMU Manager and we are lagging behind in implementing projects and this can result in MIG funding being withheld in future

CHAPTER 2

BASIC SERVICE DELIVERY PERFORMANCE

HIGHLIGHTS

KRA 2

2.1 Water Services

2.1.1 Water services delivery strategy and actors

Inxuba Yethemba Municipality is a Water Services provider in its area of jurisdiction on behalf of Chris Hani District Municipality which is the Water Authority. The municipality purchases bulk raw water from the Fish River Scheme in Cradock unit. The water is treated and distributed to the consumers. In the Middelburg unit the water is pumped from boreholes and distributed to the consumers.

2.1.2 Level and standard of water service

Table 2.1 Water Access by household

Water Source	% Households Census 2001	% Households RSS 2006	% Households CS 2007
On site	87.4	96.5	91.30
Borehole/Tank	0.9	1.4	5.5
Communal Stand Pipe	10.2	2.2	2.6
Natural water/Dam	0.9	0.0	0.6
Other	0.7	0.0	-

Source: Census 2001, RSS 2006 and CS 2007

Households in Inxuba Yethemba obtain their water from the sources listed in table 2.3. It is evident from the table that most households have access to treated water and only a small percentage from natural sources. Most of the people in the rural areas of municipality receive water below RDP standards. With the existing growth rates and developments particularly water borne sewer, the water storage capacity requires expansion in the coming years. There has also been a marked improvement in quality water provision when a comparison is done between Census 2001 and RSS 2006 survey. The correctness of the community survey (CS) 2007 statistics is highly questionable and is not used for comparison purposes. The backlog is standing at 10% and this translates to R3.8million according to CHDM 2007/8 IDP. With this picture both the provincial and national targets are within reach.

2.1.3 Annual performance as per key performance indicators in water services

	Indicator name	Target set for the year (number of households)	Achievement level during the year (number of households)	Achievement percentage during the year	Overall achievement rate including previous years
1	Percentage of households with access to water services	619	0	0	95.8
2	Percentage of households with access to basic water services	571	351	61	98.3
3	Percentage of indigent households with access to basic free water services	220*	0	0	95.6
4	Percentage of clinics with access to water services	-	-	-	100
5	Percentage of schools with access to water services	-	-	-	100
6	Percentage of households using buckets	-	-	-	100

* This refers to Rosmead which is currently a Transnet settlement

2.1.4 Challenges

Rehabilitation of the bulk water infrastructure and reticulation networks will have to be attended to as a matter of urgency as it has by far exceeded its lifespan. This results in water losses that exceed acceptable levels due to leakages. Water storage and treatment capacity require expansion to meet the increasing demand.

Middelburg unit solely relies on ground water and currently ground water levels are at their lowest, posing a serious challenge to the municipality. A lasting solution is required and this can only be achieved by drawing water from Fish River Scheme. This is a huge project which even the District council as a WSA cannot undertake alone as the project is estimated to be approximately R100 million. Rosmead is the area which needs serious attention in terms of up to the erf water provision as is the norm in all other areas in the municipality. The land transfer from Transnet needs to be finalized first before projects can be implemented in this area

2.2 Electricity Services

2.2.1 Electricity services delivery strategy and main actors

The municipality distributes electricity to Cradock town, Michausdal and the whole of Middelburg. In Lingelihle township Eskom is the distributor. It also has a responsibility to provide and maintain streetlights throughout the municipality. Electricity is purchased in bulk from Eskom and distributed through the municipality's infrastructure and network. The municipality's role is administered as follows:

- ❖ Bulk purchase of electricity supply from Eskom
- ❖ Distribution of electricity to consumers
- ❖ Management of pre-paid electricity to consumers
- ❖ Taking measures to prevent theft of electricity
- ❖ Maintaining links with government departments and institutions like DME, NERSA etc.
- ❖ Implementation of projects on housing electrification
- ❖ Maintenance and upgrade of electricity infrastructure and networks
- ❖ Public lighting of streets and maintenance of street light fittings and fixtures

Strategic objectives of the function are:

- ❖ to ensure that all communities receive adequate and uninterrupted supply of electricity
- ❖ ensure adequate street lighting so as to provide safety and security in the communities

2.2.2 Level and standard in electricity service

2.2.2.1 Percentage households' use of electricity

	CENSUS 2001	COMMUNITY SURVEY (CS) 2007
Electricity used for lighting	82.5	94.1
Electricity used for heating	44.3	43.7
Electricity used for cooking	52.8	79

Source: Census 2001, CS 2007

2.2.2.2 Electrification in Inxuba Yethemba

Table 2.2

Ward	% Households With Electricity	% Ward With Adequate Street Lights
1	100	100
2	100	100
3	95	93
4	100	100
5	100	100
6	90	99
7	100	100
8	100	100
9	100	100

Source: Municipal Data 2009

2.2.3 Annual key performance indicators in electricity services

	Indicator name	Target set for the year (number of households)	Achievement level during the year (number of households)	Achievement percentage during the year	Overall achievement rate including previous years
1	Percentage of households with access to electricity services	220*	0	0	98.2
2	Percentage of households with access to basic electricity services	220*	0	0	98.2
3	Percentage of indigent households with access to free basic electricity	All registered indigents	All registered indigents	100	100

* This refers to Rosmead which is currently a Transnet settlement

2.2.4 Challenges

As is the case with water infrastructure the electrical infrastructure requires serious and urgent attention as the municipality is currently unable to meet the increasing current demands. Cradock unit is currently experiencing serious power supply shortcomings due to limited capacity levels. This is happening at a time when the area is experiencing an influx of people wanting to invest and local developers wanting to develop the area. This contradicts with our objective of wanting to develop the local economy and create jobs. Middelburg unit on the other hand is on a time bomb ready to explode. This is largely due to improper planning in the past, as there is currently no spare/ reserve transformer capable of carrying the full load should the one in use give in or require major servicing. This matter is receiving urgent attention as if anything happens half the community could be without supply for up to 12 months.

2.3 Sanitation

2.3.1 Sanitation services delivery strategy and main actors

The municipality collects waterborne sewerage via bulk sewer and street collectors. The raw sewer is treated at two treatment plants in Cradock and Middelburg.

The sanitation service is administered as follows:

- ❖ Maintenance of:
 - Sewer networks
 - Pump stations
- ❖ Installation of Sewer Lines
- ❖ Treatment of all waste water

2.3.2 Sanitation levels and standards

Table 2.3 Sanitation levels in Inxuba Yethemba

Ward	% With Full Sanitation
1	100
2	100
3	98
4	100
5	100
6	100
7	100
8	100
9	100

Source: Municipal Data 2009

The table indicates that all formal households serviced by the municipality have access to a waterborne sanitation. This is with the exception of Rosmead in ward 3 still owned by Transnet and areas in ward 6 that are privately owned farms.

Percentage distribution of households by type of toilet facilities

	Census 2001	CS 2007
Flush toilet (connected to sewer system)	65.7	91.2
Flush toilet (with septic tank)	3.0	1.5
Dry toilet facility	-	4.0
Chemical toilet	0.1	0.1
Pit latrine with ventilation	1.8	0.3
Pit latrine without ventilation	3.3	-
Bucket latrine	15.7	0.2
None	10.4	2.8

Source: Census 2001, Community Survey 2007

2.3.3 Annual performance as per key performance indicators in sanitation services

	Indicator name	Target set for the year (number of households)	Achievement level during the year (number of households)	Achievement percentage during the year	Overall achievement rate including previous years
1	Percentage of households with access to sanitation services	220	0	0	99.23
2	Percentage of indigent households with access to free basic sanitation services	-	-	-	100 of registered indigents
3	Percentage of clinics with access to sanitation services	-	-	-	100
4	Percentage of schools with access to sanitation services	-	-	-	100

2.3.4 Challenges

Rosmead which is still owned by Transnet still poses a challenge as it is the only area where the deadline of removing buckets by 2007 could not be met. In this respect the process of transfer of land to the beneficiaries/municipality should be speeded up. Another grey area is with the privately owned farms. Whilst the project of bucket eradication can be hailed as having been highly successful, it has ushered new serious challenges in the municipality's sewer treatment plants and its bulk sewer connectors. This could be attributed to the huge increase in load with the eradication of buckets. This is coupled with the old bulk infrastructure and sewer works. This is substantiated by the frequent breakage of pumps in Cradock sewer plant and bursting of bulk sewer pipes in Middelburg

2.4 Road maintenance

2.4.1 Road maintenance service delivery strategy and main actors

The municipality has a responsibility to construct and maintain roads within the municipal area of jurisdiction.

Maintenance entails the following:

- ❖ Surfaced Roads
 - Potholes repairs
 - Surface repairs
 - Re-sealing
- ❖ Gravel Roads
 - Grading
 - Backfilling and
 - Compacting

Construction involves

- ❖ Construction of new roads
- ❖ Surfacing of existing gravel roads with bitumen layers

The strategic objectives of roads section is to ensure that major arterial roads are maintained, tarred/ graded and provided with an effective storm water system.

2.4.2 Level and standard in road maintenance services

Table 2.4 Percentage (%) of tarred streets

Ward	% Tarred
1	54
2	11
3	34

4	93
5	16.56
6	0
7	19.67
8	35
9	15

Source: Municipal Data 2009

There is 132 km tarred and about 180 km graveled roads in the municipal area. Very few of the roads are in a fair condition the majority are in a very poor state.

2.4.3 Annual performance as per key performance indicators in road maintenance services

	Indicator name	Target set for the year (number of households)	Achievement level during the year (number of households)	Achievement percentage during the year	Overall achievement including previous years
1	Percentage of households without access to gravel or graded roads	534	180	33.7	97.5
2	Percentage of road infrastructure requiring upgrade	840	840	100	10.8
3	Percentage of planned new road infrastructure actually constructed	3	3	100	23.9
4	Percentage of capital budget reserved for road upgrading and maintenance	3	3	100	4.3

2.4.4 Challenges

An urgent need exists to upgrade access and collector roads, more particular in the newly established areas. Proper stormwater channels are non-existent in the previously disadvantaged communities. The condition of the roads throughout the municipality is a serious cause of concern as this affects access to the communities of essential emergency services such as ambulance services and even the police cannot reach some of these areas. As the result of poor maintenance over the years due to cashflow problems, even those roads thought to be in a fair state are fast deteriorating.

2.5 Waste Management

2.5.1 Waste management service delivery strategy and main actors

❖ Waste Management Includes:

- refuse removal
- solid waste disposal
- landfills
- street cleaning
- waste recycling

The refuse collection functions of the municipality are administered as follows and include:

- The removal of household and business refuse industrial waste and medical waste, street sweeping of the central business zone and peripheries. This also includes the management of solid waste disposal side.

These services include the urban areas, but do not take account of resident which resides within the rural areas of the municipality.

The municipality has a mandate to:

- Provide services to all its inhabitants

The strategic objectives of this function are to:

- Ensuring a clean environment, well kept natural open spaces,

maintain build environment.

Removal of refuse from households and business premises is done once a week throughout the municipality. Each household is supplied with a refuse bag on a weekly basis.

The Municipality of Inxuba Yethemba as mandated by the Constitution of South Africa has to reduce recycle, minimize and remove refuse in each household. This function is to ensure that all inhabitants of Inxuba Yethemba Municipality are living in a safe and healthy environment.

The role of the Municipality is to provide machinery, equipment, human resource and allocate a budget in each financial year to render this service effectively. The National Waste Management strategy encourages that municipalities involve all stakeholders that are within their communities to form an integrated waste management forum.

The main role players in the integrated waste management system are the municipality, Department of Environmental Affairs & Tourism, Chris Hani District Municipality, community based organisations, schools, private recyclers, consultants that are implementers of waste buy back centres projects and Thina Sinakho.

The Municipality	Remove refuse from each household once per week.
	Remove illegal dumped waste from open spaces.
DEAT	Funded the waste buy back centres locally.
Chris Hani D.M	Funding of waste recycling / poverty alleviation projects.

Thina Sinakho	Funding of waste recycling / poverty alleviation projects
Schools	Clean - up campaigns
CBO	Operations of buy back centres.
Dept. of Transport	Clean - Up campaigns in all wards

The integrated waste management plan and its compilation had been funded by Chris Hani District Municipality. The Kwezi V3 engineers were appointed for this exercise in 2005. The implementation that of started as early as in 1997 where Ezibeleni Developmental trust started with the buy back centre project. Cradock environmental project was also formed to fulfill the same purpose. The awareness within communities exist and poverty alleviation initiative have been started through waste recycling.

The implementation of an integrated waste management plan was further explored after a strategic planning session between the Mayoral Committee and the Section 57 Managers of Inxuba Yethemba Municipality in August 2008. This has resulted in Middelburg winning the Cleanest Town Competition in the Chris Hani District Municipality as number 2. The reduction in waste is visible as Chris Hani District Municipality gave R700 000 for poverty alleviation/clean - up campaign. An amount of R695 000 has been utilized employing community members including women and youth so that they can be able to put food on their tables. A total amount of R280 012 has been utilized for personnel payment and R189 000 has been used for equipment.

Seven (7) sites that were used as illegal dumping open spaces have been fenced with palisade fencing, supplied with taps and are being greened with indigenous plants to beautify the area. No consultants were appointed in this project and 99.2% was fully utilized to the benefit of our community.

Thina Sinakho has appointed IWARS consultant to do feasibility study expand the buy back centre in the Inxuba Yethemba Municipality. A business plan has been submitted to Thina Sinakho for above purpose to a total amount of R5 500 000.00.

2.5.2 Level and standard in waste management services

The Municipality of Inxuba Yethemba has in its budget and allocation of funds to supply each household with a refuse bin liner per week. This amounts to R340 000.00 in total. This practise is covering all nine (9) wards. Municipal employees issue each household with a bin liner the same day the refuse is removed. This then means that all ward are having access to the services. The removal of refuse work programme covers all areas under Inxuba Yethemba area of jurisdiction per week. Businesses are not benefiting as their waste does not need bin liners, but mainly cardboard and plastic, no bin liners are issued to them, removal is done as per weekly programme. The issuing of bin liners has increased the number of households that receive the service. This is due to non availability of refuse bins in the newly developed areas resulting in illegal dumping. The yearly target is four (4) bin liners per month in all wards except for rural areas (farms). The reduction in illegal dumping target is up to 60% which the municipality has achieved, but due to continuous illegal dumping the Department of Transport is assisting with its households project that works two (2) days each week. The total number of persons working for the department is 178 persons. A municipal tractor, three employees and refuse bags are given to the group so as to remove all that has been accumulated and taken to the refuse disposal site.

Refuse disposal sites do not have permits in both units, but are maintained by our municipal employees using the least equipment available.

Total number of households/customers expected to benefit is 95%

Only the empty and vandalised houses are not receiving bin liners and removal of waste that is why 100% can never be a true reflection of our services.

Estimated Backlog

This has been covered by the R700 000 funding from CHDM for waste management including the Department of Transport Project.

Target set for the year under review:

The expansion of existing buyback centre which will encourage community members to sell their waste to the project. Awareness campaigns per ward and the continuation of clean - up by Department of Transport project.

Number of households reached: 95%

Percentage of achievement during the year:

95% Refuse removal and 60% reduction in illegal dumping and is continuous.

c. Annual performance as per key performance indicators in waste management services

	Indicator name	Total number of household/customer expected to benefit	Estimated backlog (actual numbers)	Target set for the for year under review	Number of HH/customer reached	Percentage of achievement during the year
1	Percentage of households with access to refuse removal services	16 250	NONE	90%	16 250 All empty households	90%

2.5.3 Major challenges in waste management services:

Shortage of equipment is a major challenge as the equipment that is used is old 1978 - 2001 models the parts are no longer available and while a vehicle is out of order employees are to work unnecessary overtime to cover the areas. Tractors that are already irreparable are in use and taking longer time to get to the disposal site.

The maintenance cost that is high due to the condition that our equipment is in could be utilized for improving the service.

Landfill sites of both units do not have proper machinery to compact the waste. The minimal work done on landfill sites is never going to reach the maximum effectiveness of a properly operated landfill site as according to N.E.M.A. although the plan is available. The financial capacity presently cannot accommodate the above challenges. Up to a total of 6 000 households were built in the municipality and there was no mechanism that was put in place to provide a refuse bin with a lid per household.

2.6 Housing

2.6.1 Housing Supply

The greater percentage of households in the Municipality is housed in formal structures according to the municipal data for the Inxuba Yethemba Municipality (Table 2.7). The average household size is 6 occupants per household. The existing waiting list in housing departments indicates that there is demand for more housing. The condition of houses in Lusaka and Rosmead need urgent attention, as these are old and dilapidated.

Table 2.5: Housing Patterns

Ward	Households	% Formal	% Informal
1	1114	46.6	53.4
2	1799	90	10
3	2591	93.4	6.6
4	1239	100	0
5	1220	98.5	1.5
6	1628	92.9	7.1
7	2230	100	0
8	2355	100	0
9	1635	99.9	0.1

Source: Municipal Data 2009

2. 6.2 Institutional Capacity for Housing Delivery

At the present, Inxuba Yethemba Municipality has a Housing Division which is currently manned by 8 officers. The municipal organogram makes provision for 10 housing officers, which means two positions are still vacant.

In terms of the capacity to manage housing delivery, the majority of the housing delivery functions are performed in-house. However, some of these functions are shared with consultants and developers (Table 2.8). On the whole there is a functional Housing Division, which is capable of handling the housing delivery issues of the Municipality even though the Municipality has no approved Housing Policy.

2. 6.3 Annual performance as per key performance indicators in town planning services

housing and

	Indicator name	Target set for the year (number of households)	Achievement level during the year (number of households)	Achievement percentage during the year	Overall achievement rate including previous years
1	Percentage of households living in informal settlements	820	0	0	96.7
2	Percentage of households in formal housing that conforms to minimum building standards for residential houses	-	-	-	100

2.7 Spatial planning

2.7.1 Preparation and approval process of SDF

A spatial development framework was approved in late 2006. Currently this is being reviewed by a service provider and the review process is nearing completion. It is envisaged that the spatial plan document will be adopted in March 2010

2.7.2 Land use management

Currently the Land Use Management Ordinance (LUMO), together with town planning scheme by-laws of the municipality are utilized for rezoning, consent use and removal of restrictive conditions.

Applications outstanding 1 July 2007	Category	Number of new applications received 2008/09	Total value of applications received Rand	Applications outstanding 30 June 2004

	Frail care Centre	1	413 930	0
	Dance hall	2	520 341-80	

2.8 Indigent policy implementation

a. Preparation and approval process of the indigent policy

The municipality developed and approved its indigent policy through a broad consultative process in the wards. It was promulgated in the provincial gazette.....

This policy continues to be revised on an annual basis as part of revision of finance policies during budget preparation process.

b. Implementation of the policy

Households whose total income is less than R1 200 per month are regarded as indigent according to council policy. Households where there are two elderly dependent on grants are treated as indigent households. Foster care grants as well as child support grants are not considered as household income. In the policy the indigent households receive 100% subsidy for all municipal services and 50kWH of electricity per month. It is compulsory for indigent households to make use of prepaid electricity so as to benefit on the 50kWH. The municipality utilise the services of fieldworkers in each ward to communicate the policy and encourage those who qualify to apply. The indigent register is updated annually around November month. All indigents are required to re-register during this period so as to verify their status.

2.8 OVERALL SERVICE DELIVERY BACKLOGS

Basic service delivery area	30 June 2008			30 June 2009		
	Required	Budgeted	Actual	Required	Budgeted	Actual
Water backlogs (6kl/month)

Spending on maintenance to ensure no new backlogs (R000)	–	–	–	R24 763	R 272	R 272

CHAPTER 3

MUNICIPAL LOCAL ECONOMIC

DEVELOPMENT FRAMEWORK

KPA 3

3.1 Brief presentation of LED strategy/plan

The vision of the Inxuba Yethemba LED strategy captures what the LED Strategy seeks to achieve.

The following key words and phrases were identified by stakeholders in the draft LED strategy development exercise which took place in 2004 and which were confirmed at the first Economic Indaba as elements that should be included in the economic vision of IYM in 2008:

- Sustainable and growing economy
- Address poverty and unemployment
- Equity & inclusiveness
- Partnerships
- Preferred destination
- Safe and secure environment
- Attract investment

Based on the above, the following long-term economic vision for Inxuba Yethemba Municipality was drafted and approved by stakeholders:

“IYLM is a preferred investment destination with a growing and sustainable local economy that, through effective partnerships, a secure environment, and equitable development, is able to provide a better life for all its citizens.”

Strategic Goals

The setting of goals is based on the question: “What indicators need to be measured to determine the extent to which the economic vision has been achieved?” The economic goals for IYM are aligned to the Provincial Growth and Development Plan (PGDP) objectives and the national targets on economic development where possible. The strategic goals for the Inxuba Yethemba LED Strategy have been developed through the participation of stakeholders at the two Economic Indabas that were held in November 2008 and are as follows:

1. Grow the local economy by at least 6% per annum from 2009

The GGP (Gross Geographic Product) growth rate over the period 1995 to 2007 was 4% on average and 6.2% from 2003 to 2007. The PGDP prescribes growth targets of between 5% and 8% per annum, over the period 2004 – 2014 and ASGISA prescribes growth targets of 4.5% per annum from 2004 to 2009 and a growth rate of 6% per annum from 2010 onwards. The economic growth targets for IYM are based on reasonably achievable targets, given the current global economic downturn, and are in line with both the provincial and national targets.

2. Attract new investments to IYM by providing an enabling environment for investment and actively marketing IYM as an investment destination

IYM hopes to attract new investment to the region to contribute to economic growth and job creation. IYLM will aim to achieve this by creating an enabling environment for investment; this includes things such as provision of infrastructure (especially water and electricity) and basic services, ensuring safety/security, enforcing by-laws, etc. IYLM has recognised the importance of

marketing the region as an investment destination so that the areas competitive advantages become known to businesses. IYM aims to attract at least 5 medium to large investments to the area by 2014 that creates at least 50+ direct employment opportunities per investment.

3. Sustainable SMMEs will be promoted and supported in IYM, particularly in previously disadvantaged communities.

Small businesses, including 2nd economy businesses, contribute significantly to the success of local economies worldwide. SMMEs can contribute significantly to employment creation; and most of the businesses in IYM are SMMEs. SMMEs face a range of constraints and the success rate of start up businesses is low; for this reason support to SMMEs is critical to the development of the economy. Most of the businesses in IYM are SMMEs; there are approximately 300 small businesses in the region.

4. Growth of the agricultural sector will be encouraged through diversification and value adding to primary products

There are about 450-530 commercial farms in IYM, focussed on either intensive irrigation or dry land livestock farming. Agriculture is one of the mainstays of the IYM economy. There is very limited value adding to any agricultural products that are produced within the region and there are economic opportunities within the agricultural sector (i.e. value adding and beneficiation). In addition, there is scope for introducing higher value crops to benefit both commercial and emerging farmers (roughly 15 emerging farmers groups in IYM).

5. Effective partnerships will be established between IYLM, local businesses and other developmental stakeholders

The absence of effective partnerships and communication has been noted in the situation analysis as being a big challenge for economic growth in IYM. There is currently no Tourism Forum or functional LED Forum; Middleburg has a Chamber of Business and Cradock has recently re-established its Chamber of Business. However, there is limited participation in these groups and limited interaction between them. There is also limited interaction between Middleburg and Cradock stakeholders, which is a challenge for regional growth. In addition to this other stakeholders note that IYLM is not effectively communicating with business and other stakeholders, or coordinating LED in the region.

The four sectoral programmes that will be prioritized to stimulate local economic development in Inxuba Yethemba are as follows:

1. Agricultural Development
2. Tourism Development
3. Commercial Development (includes components of the other three programmes, but focuses specifically on trade, finance and business services)
4. Industrial Development (includes agro-processing opportunities)

• Status on developing the LED strategy/plan

Inxuba Yethemba LED strategy was adopted in March 2009 after a process of formulation that started about April 2008.

- **Setting up an LED unit**

The municipality has a medium-capacity LED unit.

- **The availability of LED expertise**

The LED unit is basically made up of a manager, with general management qualifications and skills and experience on LED; An agricultural economist who is heading the agriculture section; a Tourism Development Officer who trained in tourism and hospitality management and an SMME Development Officer who has experience in small enterprise development.

- **LED stakeholder forum functionality**

The LED forum is being revived after a period of non-functionality. Already four meetings have been held both in Cradock and Middelburg and a launch is being planned in the near future.

- **Funding opportunities of LED activities**

1. The Department of Economic Development and Environmental Affairs has granted the municipality R 2,4m to build a conference centre as part of the Vusubuntu Cultural Village and Tourist Information Centre that is nearing completion.
2. The Department of Environmental Affairs and Tourism (DEAT) has confirmed a grant of R 6m to top up for the conference centre and to complete the furnishing of the chalets and fencing of the village (security fencing).
3. Two LGSF applications for the Development of a Business Support Programme (R 698, 276) and
The Development of a Strengthened LED Delivery System (R 713, 800) have been submitted to Thina Sinako at the end of September 2009.
4. A LGSF application has also been submitted to Thina Sinako for the development of a tourism marketing plan and diversification of tourism products.

3.2 Progress towards achieving the LED key objectives

a. Improve public and market confidence

- **Spatial Development Framework is currently under review**
- Investments and trading by-laws

Presently the municipality has been assured by Sugarbeet RSA, trading as Arengo 315 Pty Ltd of an investment in the region of R 1billion in investment on a sugarbeet bio-fuel processing plant.

- Provision and maintenance of quality and reliable infrastructure: Roads; ITC; market places.

The municipality has plans to include hawkers' facilities and small business premises/hubs in the 2011/12 MIG applications. A hawkers' facility has been completed in the Middelburg unit of the municipality to accommodate hawkers.

3.3 Annual performance as per key performance indicators in LED

	Indicator name	Target set for the year	Achievement level during the year (absolute figure)	Achievement percentage during the year
1	Percentage of LED Budget spent on LED related activities.	50%	50%	
2	Number of LED stakeholder forum held	Establishment of Forum	Still in establishment phase	60%
3	Percentage of SMME that have benefited from a SMME support program	5	3	60%
4	Number of job opportunities created through EPWP	Could not be projected as not under control of municipality	As indicated in the targets	Cannot be accurately quantified
5	Number of job opportunities created through PPP	Targeted 1 PPP establishment	Intended PPP to have benefitted 20 opportunities	Attempts could not materialise

3.4 Challenges regarding LED strategy implementation

- The unit itself is faced with having a fully fledged staff complement with requisite competences in the specialised areas
- Funding for implementing the strategy becomes the most daunting challenge in respect of our flagship projects
- Lack of common understanding in the institution and community at large around the pivotal role the IDP can play in stimulating the local economy

CHAPTER 4

MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

KPA 4

4.1 AUDITED FINANCIAL STATEMENTS

THE FINANCIAL MANAGER'S REPORT

The majority of local Municipalities are experiencing major changes in the local government environment. This put a challenge towards service delivery and the honoring of historical arrear financial commitments as well as current commitments. It is essential to keep on prioritizing the available limited resources to critical key areas. However, all our reserve funds are not fully invested and it will be addressed in the near future in terms of the proposed provision of GAMAP/GRAP. For long term stability it is crucial that the income base be broadened with the emphasize on debtors collection, asset management and budget control.

BUSINESS RESULTS

Details of the business results per department, classification and purpose of expenses are given in Appendices D and E on page 25 and 26. The general business results for the year ended 30 June 2009 are as follows:

INCOME	ACTUAL 2008	ACTUAL 2009	DIFFERENCE %	BUDGET 2009	DIFFERENCE ACTUAL BUDGET %
Opening Surplus/Deficit	R 29 174 622	R -25 722 310

TOTAL	R 2 963 109	R 30 489 800	R 378 163

EXTERNAL AND INTERNAL LOANS

The total external loans outstanding are R2 897 397.39 and the internal loans from Revolving Fund R630 800.88. An amount of R183 138.56 is paid for redemption of internal loans. For a complete summary of the capital expenses see appendices B on page 25.

My thanks to the Mayor, Chairperson of Finance, Councillors, Municipal Manager and other Managers for their loyalty and cooperation given to me and my staff during the year.

.....
J. KRAPOHL

CHIEF FINANCE OFFICER

ACCOUNTING POLICIES

1 Basis of presentation

- 1.1 These financial statements have been prepared so as to conform to the standards laid down by the IMFO in its Code of Practice for Local Government Accounting (1997) and the Published Annual Financial Statements for Local Authorities (2nd edition 1996, as amended).
- 1.2 The financial statements are prepared on the accrual basis:
 - Income is accrued when collectable and measurable. Certain direct income is accrued when

received, such as traffic fines and certain licences.

- Expenditure is accrued in the year it incurred.

2 Consolidation

The balance sheet includes the rates and general services, trading services, housing services, and the different funds, reserves and provisions. All inter departmental charges are set-off against each other, with the exception of assessment rates.

3 Fixed Assets

3.1 Fixed assets are based on cost.

3.2 Depreciation of assets are not applicable but will change with the implementation of GAMAP/GRAP

3.3 All net proceeds from the sale of fixed property are credited to the Revolving Fund.

3.4 Capital assets are financed from different sources, including external loans, subsidies, operating income and internal advances.

3.5 Only assets with a cost of R10 000-00 and above are capitalized. The others are part of an inventory list.

4 Depreciation

4 The balance against the heading Loans Redeemed and Other Capital receipts is actually provision for depreciation. Assets may be acquired from :

a) From income - credited immediately to the loans redeemed fund.

b) Grants and donation - where the amount representing the value of such grant or donation is immediately credited to the Loans redeemed and other capital receipts account.

- c) External loans - where the amount representing the value of such external loan is credited to the loans redeemed fund as soon as it has been paid in full.
- d) Advances - where the amount representing the value of such internal loan is credited to the loans redeemed fund as soon as it has been paid in full.

5 Stock

The value of stocks and materials is stated at weighted average.

6 Funds and Reserves

6.1 Capital Development fund

The Ordinance no 20 of 1974 requires that a certain contribution should be credited to the Revolving Fund. An amount of R852 101 was contributed.

7 Agency service to Chris Hani District Municipality

In terms of government gazette 24229 of 3 January 2003 the function to deliver water and sanitation services in the Inxuba Yethemba municipality were allocated to the Chris Hani District Municipality. As such the surpluses and deficits, receivables, grants, external loans relating to the water and sanitation services and any investments relating were separated from the municipality's account and reflected in an agency account. The service level agreement with Chris Hani District Municipality has expired on 30 June 2009.

8. Provisions

Leave gratuity

This provision is being built up with contributions from the appropriation account to provide for the payment of accumulated leave of persons resigning from service in Council and to make provision

to adhere to new legislation around standard employment service contracts.

9. Bad Debts

This provision is being built up with contributions from the appropriation account to provide for bad debts occurring from debtors driven by the affordability of increased tariffs.

10. Surpluses and Deficits

Any surpluses or deficits arising from the operating of the electricity, water and housing services are transferred to Rates and General services.

11. Treatment of administration and other overhead expenses

The cost of internal support services are transferred to the different services that are making use of such services.

12. Investments

Investments are shown at original cost and are invested in securities prescribed in section 2(i) of Ordinance 23 of 1935. In some cases the interest on investments are capitalized. These investments are shown at original cost plus accumulated interest.

13. Income recognition

Electricity and Water billing

Meters are read and billed monthly.

If readings cannot be taken, a provision levy based on the average consumption, is calculated.

14. Assessment Rates

The council applies a differential site rating system.

15. Leases

The leases held by Inxuba Yethemba Municipality are operating leases. The leases are for photocopiers.

16. Entity

Mmotlie Investments was established to assist Inxuba Yethemba Municipality with several projects. Inxuba Yethemba Municipality does have shares to the value of R100. No consolidation-

litation was done and the statements of Mmotlie Investments are seperately attached.

EXTERNAL LOANS

DBSA loans were taken up for infrastructural projects as well as buildings.

The Wesbank loan was taken up for the purchase of a vehicle.

Carry interest at rates varying between 7% and 19% per annum and are repayable over periods of between 7 years and 30 years. None of these loans were secured by any asset of Inxuba Yethemba Municipality.

27 SURPLUS ON ECONOMIC SERVICES

In terms of the accounting practice by IMFO it is a requirement that economic services be fixed in such a way that the service do not incur a surplus or deficit. At this stage it is difficult to comply because of Council's strife to uniform tariffs and would have a significant negative impact on Council.

28 INTEREST ON OUTSTANDING LIABILITIES

32 ENTITIES

Mmotlie Investments (Pty)(Ltd) - Only Entity

30 DISCLOSURES CONCERNING COUNCILLORS, MANAGERS AND OFFICIALS

Councillors

The remuneration of Councillors have been done according to the

Current year payroll deductions not paid over

Interest and Penalty

Amount paid - Chris Hani District Municipality

Balance unpaid - our records

353 088	549 599
0	0
0	0
353 088	549 599

Unpaid salary deductions on 30 June 2009

1 455 949	1 315 412
-----------	-----------

Total Outstanding

1 809 037	1 865 011
-----------	-----------

The following salary deductions for June 2009 have been paid in July 2009

1 401
590.30

Contribution : Pension Fund

Contribution : Medical Aid

Other sundry deductions

Bonds

552 846.02
404 920.00
381 600.28
62 224.00

26 OBSOLETE STOCK/ASSETS

No auction was held during 2008/2009

27 SURPLUS ON ECONOMIC SERVICES

In terms of the accounting practice by IMFO it is a requirement that economic services be fixed in such a way that the service do not incur a surplus or deficit. At this stage it is difficult to comply because of Council's strife to uniform tariffs and would have a significant negative impact on Council.

4.2 Budget to actual comparison

Budget was compiled on a cash to be collected basis. The income and expenditure from water and sewerage have been taken out of the actual figures and transferred to an agent account. This is because the municipality is a service provider of the district municipality Chris Hani hence service is on an agency basis. The budget figures on the other hand still reflects the amounts taken out in actual hence the variance in both income and expenditure.

Rates and general services is a section where only the economic services are having a greater income than expenses, with the result that shortage is subsidised by trading services.

No significant variance is observed in the housing service.

A deficit of R442 329 was budgeted for but the actual at the end of the financial year was

R401 342 and this variance can also be attributed to the removal of water and sewerage from the budget figure.

7	Percentage of MSIG budget appriotely spent	350000	282337	80.67%

CHAPTER 5:

GOOD GOVERNANCE

AND PUBLIC PARTICIPATION-

KPA 5

5.1 Overview of the Executive and Council functions and achievements;

To govern on its own initiative the affairs of the local community. Ensure the provision of services to the local community. Municipal council exercise the municipality's legislative and executive authority. Promote and undertake development in the municipality

The function of executive and council within the municipality is administered as follows and includes:

- Committee services under the auspices of the Speaker.
- Council and committee meetings are regularly held and are open to the public
- Ward participatory system under the auspices of the Speaker

Ward Councillors are in charge of the wards and the ward committees

Training of ward committees was initially facilitated by Speaker

The ward Councillors are expected to keep their ward committees in full operation

Mayoral Committee under the auspices of the Executive mayor

The Mayoral committee is fully functional and meets regularly. The committee acts in a supervisory capacity over the other committees, as the 4 Chairpersons of the 4 standing committees sit in the Mayoral committee and report on progress in their committees

- Ward Councillors

IYM has a ward-participatory system. Ward Councillors drive the processes of public participation in municipal affairs in their wards. They also deal with general complaints from constituents in the wards. The Councillors are assisted by fieldworkers deployed in the wards

- Chairpersons of standing Committees

4 Councillors are deployed as Chairpersons of the standing committees and together with the relevant Section 57 Manager are responsible for the smooth running of the relevant municipal department. Committee meetings are open to the general public but the public hardly ever make use of this platform, except when dedicated groups represent specific interests

-Councillors deployed in committees

The rest of the councillors are deployed in the standing committees and assist the Chairperson in his/her duties. Councillors are also deployed on external bodies, like the Police Forum, Museum Board, etc.

Function Analysis:

1	Councillor detail:	
	Total number of Councillors	18
	Number of Councillors on Mayoral Committee (includes Mayor & Speaker	6
	2 Ward detail:	
	Total number of Wards	9
	Number of Ward Meetings	47
	3 Number and type of Council and Committee meetings:	
	List here Council meetings, followed by individual committee and the number of times that each met	
	Ordinary Council meeting 2008/9	6
	Special Council meetings 2008/9	7
	Committee meetings 2008/9	
	Community	8
	Corporate Services	8
	Finance	8
	Technical & LED services	8
	Mayoral committee	7

5.2 Public participation and consultation;

Public participation in the municipality takes place largely through Integrated Development Plan Review Forums and budget consultative processes. Due to the busy nature of the politicians for electioneering work it was not possible to have the anticipated Mayoral Imbizo's in the financial year. A great effort though has been spent on reviving the other consultative forums such as LED, Business, HIV/AIDS coordinating forum and Youth forum. Public is given an opportunity to air its views as was given to the Middelburg Rates Payers Association which bore positive results in responding to a dispute. Whilst it is in the municipality's interest to have a fully fledged customer care centre which can also manage customer surveys the available resources are lacking in this respect

5.3 Ward committees' establishment and functionality

All ward committees were established throughout the municipality and their term determined to coincide with that of the existing term of councillors. Initial induction training was provided with follow up trainings. It must however be mentioned that with lack of resources and operational environment for ward committees the initiation trainings could not produce results. In general as measured through reports of committee meetings submitted it can be said that 40% held their meetings. The vastness geographically the wards covered as compared to the level of poverty of populace in these areas also had an impact on this. Another challenge is the conceptualisation of the actual role of ward councillors in general as it relates to council business

5.4 Community Development workers performance monitoring

In this respect it must be categorically stated there has never been a mechanism developed for proper reporting of CDW's to council as a structure. The council allocated the responsibility of CDW's to a councillor to coordinate their activities and serve as a mentor, this responsibility is currently located in the office of the Speaker. It must however be stated unless the reporting accountabilities between the Province responsible for stipends/salaries and municipalities where they physically is clarified the goal post will be missed.

5.5 Communication strategy

The municipality has adopted its communication strategy which will continue to be reviewed on a continuous basis. Whilst this is not a final blue print its implementation has been hampered by the absence of a competent personnel to drive the process. It is planned that the requisite skills will be acquired in the next financial year. The necessary infrastructure for the execution of these duties will still pose a challenge

5.6 Intergovernmental Relations

The intergovernmental Relations forum was not particularly active in the year in question. Structures in the form of clusters were set up but it was clear that conceptualisation of the importance of forum was lacking.

5.8 Legal matters

5.8.1 Setting up of Legal Units

The municipality does not have a Legal Unit. It from time to time make use of the legal firms within the municipality depending on their services and nature of the case

The following legal firms are used from time to time:

- Metcalf & Kie
- Vosloo & Nolte
- Coetzee & Coetzee
- Myburg Attorneys

5.8.2 Management of litigation

1. Case Load Management with specific reference to:

a. Favourable cases

Case name	Recovery (yes/No)	Reasons for non recovery
N/A		
N/A		

b. Unfavourable cases

Case name	Compliance with judgement (yes/No)	Reasons for non compliance with judgement

2. Case age analysis,

Case name	Nature of the case	Date of commencement	Cases of 2 years or bellow	Cases beyond 2 years	Reasons for extensive duration
N/A					

3. Default judgements

Case name	Reasons for default judgement
N/A	

4. Prevention mechanisms of current litigations:
No current litigations

5. Criminal matters emanating from corruption and fraud
Not in the financial year under consideration

5.8.3 Management of Legal Risks

This is in accordance with fraud prevention policy although it is currently not fully implemented

CORPORATE SERVICE PERFORMANCE 2009

Key Performance Area	Objective	Project	Indicator	Evidence/ Measurement	Annual Target/ Timeframe	Status on Review		Reasons for deviation/ Measures to Improve
						Expected	Actual	
Institutional		Organogram	Institutional consolidated structure	Institutional Chart	January 2009	As per evidence	Completed	
			Placement completed	All employees placed	January 2009	100%	About 100%	This is due to one or two exceptional cases which unfortunately came about late and are receiving attention
			Revised plan with set targets	Revised plan				Plan available had no numerical goals. <i>Plan must include numerical goals</i>
			%	Employment	June 2009	60%	Could not be	Due to non

development and transformation	Improve administrative capacity, representivity and governance of municipality on a continuous basis	Employment Plan Revision and Monitoring	achievement of targets set	records			measured	existence of numerical goals
			Submission of institutional equity report	Proof of submission	As per DOL deadlines	Plan submitted	As expected	
			% adherence to the revised equity plan	Records of employment	June 2009	60%	Could not be achieved	As per comment revision of the plan
			Functional training committee	Number of meetings held	Quarterly meetings	4	3	More meetings could have been held but some of them could not materialise due to non attendance.
		Skills Development plan	Skills Audit	Documented audit	March 2009	As per evidence	Could not be conducted	Training from previous audit was still outstanding. <i>Budgeting for training to be prioritised</i>

			Submission of workplace skills plan to LGSETA	Proof of submission	June 2009	Submission	Submitted	
		Functional Labour Forum	Meetings taking place as scheduled	Minutes of meetings	As scheduled	Functional LLF	To a large extent functional	The schedule was not followed to the latter
		Disciplinary hearings	Number of working days taken to hold disciplinary hearings after serving a notice a misconduct	Records of individual cases in quarterly reports	15 days	15 days	Conducted in compliance with Disciplinary code	More coordination with individual departments
Employee relations	Ensure sound working relations in a conducive working environment	Development and review of by-laws and	Municipal code of by-laws complete number of policies	Documented code	June 2009	As per	Policies and by-laws developed and reviewed at department	There were no funds to consolidate policies into a code. This

		polices	developed and reviewed	Policies reviewed and resolution by council		evidence	level. No documented code yet.	will be taken up in the next financial year using the MSIG grant.
								<i>The role of department should be to coordinate policy development across the various departments.</i>
Good Governance and public participation	Provide for transparent and accountable governance	Performance management system	PMS adopted and implemented	Approved PMS	Dec 2008	As per evidence	PMS framework has been developed and adopted by council in Jan 2009	
		Ward committee capacitation	Capacitation program and achievement of objectives	Capacitation program and achievement of objectives	January 2009	Program and progress report	No program But capacitation took place	Program not developed as there were no dedicated funding for capacity building.
		Ward meetings and	% of meetings held in line with	Minutes of meetings	Quarterly	Reports	Few wards hold meetings as per	<i>Need to budget for this</i>

		ward committee meetings	agreed timelines	held	reports		schedule and some do not provide minutes	<i>This is a difficult role to task to an official and requires political intervention.</i> <i>The department role should be more of supportive than facilitating meetings</i>
	Ensure timeous provision of information to councilors and coordination and administration of implementation of resolutions	Agendas	Number of days agenda distributed before meeting	Receipt (Delivery) register	7 days before meeting	As per target	This for some meetings is difficult to achieve	This is because although deadlines are set for submission of items these are not adhered to in some instances. <i>Agendas should go out with only those items available as at the deadline</i>
Council and committee administration		Council and Mayoral committee resolutions	Developed system of monitoring	Documented system developed	October 2008	As per evidence	A system is in place for isolating resolutions for implementation	

Councillor support	Coordinate policy development with regards to support	Councillor support and welfare	Policy with regards to support and welfare						
	Develop and implement councillor development programme	Capacity development programme	Developed program and extent of implementation	Policy document		Document	No work done	No clear terms of reference and no inputs from councillors	

PART 3

FUNCTIONAL AREAS REPORTING

AND ANNEXURES

A: FUNCTIONAL AREA SERVICE DELIVERY REPORTING

9.1 GENERAL INFORMATION (POPULATION STATISTICS)

INXUBA YETHEMBA MUNICIPALITY	GENERAL INFORMATION
------------------------------	---------------------

Reporting Level	Detail	Total
Overview:	Inxuba Yethemba Municipality comprises the former Middelburg EC and Cradock TLC's, the N10 national road which is the main link between Port Elizabeth and the north runs through the municipality. The Municipal council has an Executive Mayoral Committee with ward participatory system. It is comprised of 8 proportional representative and 9 ward councillors	
Information	1	Geography: Geographical area in square kilometres Source: Municipal Demarcation Board Municipal Profile for EC131
	2	Demography: Total population Source: Census 2001
	3	Indigent Population Municipal records of registered indigents. Households whose total income is less than R1 200 per month are regarded as indigent according to council policy. Households where there are two elderly dependent on grants are treated as indigent households. Foster care grants are child grants are not considered as household income.

9.3 FINANCE AND ADMINISTRATION

Function:	Finance and Administration		
Sub Function:	Finance		
Reporting Level	Detail	Total	
Overview:	Includes all activities relating to the finance function of the municipality. Note: grants information should appear in Chapter 4 on <i>Financial Statements and Related Financial Information</i> .		
Description of the Activity:	<p>The function of finance within the municipality is administered as follows and includes:</p> <ul style="list-style-type: none"> *Finance Administration to give guidance to internal dept. *Asset and budget control management-the management of municipal assets and risks, financial statements, municipal budget and internal control *Internal services-valuation and calculation of rates, raising of monthly accounts to all consumers for services, customer queries and payments *Revenue management-ensure that all debt is collect, revenue collected and administration of the indigent customer *External services-management of the salary payroll <p>Paying of creditors as well as sundry</p> <p>Payments key issues are: the development and enhancement of an accurate and effective system</p> <p>The strategic objectives of this function are to:</p> <p>The key issues for 2008/09 are:</p> <ul style="list-style-type: none"> Participatory Budget Process Financial Statements Property Valuations Compliant Asset Register Revenue Generation and Financial Management 		

Analysis of the Function:			
1	Debtor billings: number and value of monthly billings: Function - <list function here eg: water, electricity etc> - Number and amount billed each month across debtors by function (eg: water, electricity etc) and by category: Government, Business, Residents and Indigents Note: create a suitable table to reflect monthly billed and received (against billed) across debtors by function (eg: water, electricity etc) and by category	See Annexure 2	
2	Debtor collections: value of amount received and interest: Function - <list function here eg: water, electricity etc> - Value received from monthly billings each month and interest from the previous month across debtors by function (eg: water, electricity etc) and by category: Government, Business, Residents and Indigents Note: create a suitable table to reflect amount received from that month's billings plus interest from the previous month across debtors by function and by category	See Annexure 1	
3	Debtor analysis: amount outstanding over 30, 60, 90 and 120 plus days: Function - <list function here eg: water, electricity etc> - Total debts outstanding over 30, 60, 90 and 120 plus days across debtors by function (eg: water, electricity etc) and category Note: create a suitable table to reflect debts outstanding over 30, 60, 90 and 120 plus days across debtors by function and category	See Annexure 3	
4	Write off of debts: number and value of debts written off: - Total debts written off each month across debtors by function (eg: water, electricity etc) and category Note: create a suitable table to reflect write offs each month across debtors by function and category	<number>	R (000s) <value>
5	Property rates (Residential): - Number and value of properties rated - Number and value of properties not rated - Number and value of rate exemptions - Rates collectible for the current year	See Annexure 6	
Reporting Level	Detail		
6	Property rates (Commercial): - Number and value of properties rated - Number and value of properties not rated - Number and value of rate exemptions - Rates collectible for the current year	See Annexure 6	
8	Property valuation: - Year of last valuation - Regularity of valuation		
9	Indigent Policy: - Quantity (number of households affected) - Quantum (total value across municipality)	See Annexure 7	
10	Creditor Payments: <List creditors here> Note: create a suitable table to reflect the five largest creditors individually, with the amount outstanding over 30, 60, 90 and 120 plus	See Annexure 5	

	days		
11	Credit Rating:		
	No credit rating done	N/A	
12	External Loans:		
	- Total loans received and paid during the year		
	Note: Create a suitable table to reflect the balance of each external loan at the beginning of the year, new loans raised during the year and loans repaid during the year as well as the balance at the end of the year. Interest rates payable on each loan, together with the date of repayment should be also disclosed in the table.	See note ¹	
13	Delayed and Default Payments:		
	<List delayed and default payments here>		
	List here whether Council has delayed payment on any loan, statutory payments or any other default of a material nature	See notes on statements	
	Note: This information need not be reported here if reported as notes to the accounts.

¹ EXTERNAL LOANS

DBSA loans were taken up for infrastructural projects as well as buildings.

The Wesbank loan was taken up for the purchase of a vehicle.

Carry interest at rates varying between 7% and 19% per annum and are repayable over periods of between 7 years and 30 years. None of these loans were secured by any asset of Inxuba Yethemba Municipality.

No external loans were taken in the financial year.

FINANCE DEPARTMENT PERFORMANCE 2009

Key Performance Area	Key Objectives	Project	Key Performance Indicators	Evidence/ Measurement	Target/ Date of completion	Performance status on review		Reason for deviation/ Measures to Improve
						Expected	Actual	
BUDGET	Preparation done in accordance with agreed process which is participatory and meet timelines	Preparation	MTREF budget adopted	Document and council resolution	30 th May 2009	As per evidence and target	Budget adopted and approved by council as per Council Resolution 09/57	
	Ensure implementation of budget as approved	Control of operating income and expenditure	Number of reports	Reports	12	12	Monthly reports to standing committees	
	Development and review of all budget related	Budget related policies	Policies reviewed	Documents	30 th May	As per	Relevant policies reviewed but not	Policies could not be workshopped with councillors in time.

	policies	review			2009	evidence and target	before June 2008	Policy review should take place simultaneously with budget process
FINANCIAL STATEMENTS	Timeous preparation and submission of financial statements for the next financial year	Preparation	Proof of submission to AG	Document of statements	30 th August 2009	As per evidence and target	Statements to be submitted timeously	The timeframe is outside the financial year in question. This should be measured in the following financial year
	Ensure movement towards a clean audit on matters within council's control	A.G Findings	Reduction in Qualifications	A.G report 2008/9	40% reduction in 2008/9 statements	As per evidence and target		This should be measured in the following financial year
	Preparation of GAMAP/GRAP financial	GAMAP/	Statements compliant with	Document of	Prepared compliant			Cannot be assessed in the financial year in

	statements for the year as a measure of preparedness	GRAP	GAMAPI/GRAP	statements	statements	question
PROPERTY VALUATIONS	To ensure that the municipality is ready to implement fully the PRA by 1 July 2009	Valuation Roll	Certified Valuation Roll	Document	January 2009	Valuations loaded and balanced with register
		Implementation of PRA	Report on success	Report	100% readiness by June 2009	Levy on new valuation roll to be done on July. Appeal hearings will only take place in 2009/10
ASSET REGISTER	To provide a compliant comprehensive asset register that is properly maintained	Compliant Asset register	State of readiness	Compliant register	100% by June 2009	Funding and time constraints a challenge as this is a huge task which requires skills not available internally. A service provider to be

									appointed	
REVENUE GENERATION AND FINANCIAL MANAGEMENT T	To generate sufficient revenue to meet the municipality's monthly commitments identified	Recovery Plan	Progress report	Reports	Monthly reports	12	Reports presented to standing committee			
			% recovery rate on debtors levied	Reports	90% by June 2009	90%	Target could not be met		Target could not be met due to global economic climate	
		Viability Targets	Reduction in number of days for creditors payment	Financial statements	10 days compared to previous financial year	10 days reduction	Target could not be met		Target not be met as for above mentioned reason	

9.4 PLANNING AND ECONOMIC DEVELOPMENT

Function: Planning and Development

Sub Function: Economic Development

Reporting Level	Detail	Total	
Overview:	Includes all activities associated with economic development initiatives		
Description of the Activity:	<p>Management of commonage</p> <p>Implementation & coordination of special projects</p> <p>Facilitation & promotion of Tourism & Community Programme (museum, tourist attractions, stakeholders mobilization & participation)</p> <p>MANAGEMENT OF COMMONAGE CORE BUSINESS</p> <p>*To facilitate and coordinate the development of emerging farmers by accessing land for them training/capacity building programmes & funding opportunities further ensure, the proper and effective utilisation of the commonage, interalia, prevention of overgrazing, supervising, replacement and repairs to all municipal fences, regular inspection of fences. Furthermore ensuring repairs to water pipelines, cribs dams for water supply, overseeing the fixing of wing pumps and their erection thereof. Lastly, supervising and inspecting water pipelines coming from town to check burst pipes and damage to property.</p> <p>*The municipality has a mandate to ensure that land is made available to the emerging farmers for production purposes. It is also responsible for ensuring that they become economically sustainable hence commercialization of them. Lastly, the local government is mandated to ensure the efficient, effective and economical use of its limited resources, in this case its land usage.</p> <p>*The strategic objectives of this function is to ensure effective. Efficient and economical use of the commonage. Further realization of emerging farmers to become commercial farmers within the next three years.</p> <p>*The key issues for 2007/8 financial year are the access to land of emerging farmers and those intersted in agricultural activities particularly the young people, women, HIV/AIDS and physically</p>		

challenged individuals

IMPLEMENTATION & COORDINATION OF SPECIAL PROJECTS

*This function is located in the Mayors Office and politically driven there while administratively is driven in the Local Economic Development Department. Its core business is the facilitation, development and identification of projects with an economic potential for implementation. Furthermore, partnerships are created with key government department and agencies for the development of these special project. It is this function, that should ensure that necessary resources such as funding and infrastructure are secured for implementation thereof. Furthermore institutional capacity building programmes for these special project are also secured. The expected beneficiaries of these project are the following sectoral groups: Youth, Women, Elderly, HIV/AIDS and the physically challenged individuals (disabled)

*In this regard the municipality has a mandate to ensure that the vulnerable groups/sectors of our society are also mobilized and become part of the developmental agenda of the municipality as required by our constitution.

*The strategic objectives of this function are to ensure that the young people, women, HIV/AIDS, elderly and so called disabled individuals enjoy their socio-economic rights as provided by our constitution. In the next three years, there should be a visible and a number of small, micro, medium enterprises that are driven by the young people, women, HIV/AIDS and physically challenged individuals (disabled)

FACILITATION & PROMOTION OF TOURISM & COMMUNITY PROGRAMMES

*The core function is the planning, facilitating coordinating stakeholders participation in the Local Economic Development activities and general municipal affairs. It develops maintains and use stakeholders database in the LED activities and the general municipal affairs. In this regard, this function coordinates the functioning of the LED forums within the municipal area by organizing and convening stakeholder meeting. the promotion of tourism is effected through tourist attractions within the municipal area which is being facilitated by the Publicity/Information Offices. On an ad hoc basis various visual and performing artists do benefit by selling their products to the visitors

*The municipality has a mandate to ensure that community participation in the municipal affairs promoted and consolidated. Furthermore, in areas such as tourism an opportunity is afforded for those previously disadvantaged to play their meaningful role in this

	industry.		
	*Thee strategic objectives of this function are ensuring a community driven local government fulfilling its vision of a coherent developmental municipality putting people first and providing a better life for all. Furthermore, there needs to be a visible number of individuals (PDI) becoming beneficiaries in the tourism industry and our municipal area becoming a preferred tourist destination

TECHNICAL SERVICES DEPARTMENT PERFORMANCE 2009

Key Performance Area	Performance Objectives	Project	Indicator	Evidence/Measurement	Annual Target/Timeframe	Status on review		Explanation of variance
						Expected	Actual	
1.	To have a living planning document	SDF Plan	Complete Plan Adopted by Council	Documentation Council Resolution	March 2009	Draft document	Not ready	Process delayed due to delays in the public participation process. All attempts to arrange with the Wards to involve the Public since January 2009 has failed. The post of Chief Civil Services was vacant from Dec 2008 to the end of July 2009 implying that post of the person responsible to drive the process was vacant.

PLANNING	guiding development in the municipal area	Housing Strategy	Approved Document	Documentation on Council Resolution	February 2009	Guiding principles	No progress	<p>An official request for assistance submitted to the TechLED Committee meeting of 19 January 2009 did not materialize.</p> <p>Refer to Report 3.1 and Resolution TechLED Agenda dated 19 January 2009. No Budget provision for the project. The resignation of the Chief Civil Services resulted in a staff shortage implying that the work could not be done.</p>

						Expected	Actual	
2. WATER	Provide continuous in the yard supply of potable water to each household by 2012	Repair Cradock Reservoir	Repairs Complete	Contract Signed off as Complete	June 2009	50% scope of work completed	No progress	The project is administered by CHDM. The project for technical purposes was split into two contracts. Due to a dispute on the award of one of the tenders the project was delayed for 12 months. The final award of the tenders was only finalized in April 2009. The budget for the project is not adequate as the tenders closed in April 2008 already having the rates escalated for a year. This resulted in a budget and CHDM has to date not provided alternative funding solutions and the project could not be implemented to date of this report.

		Rosmead Water Supply	% of scope of project	Progress reports on project	4 Reports	2 Reports	No progress	Project not implemented as DWAF has not completed the hydro census due to budget constraints.
		Drought Relief Middelbu rg Phase 1	% of scope of project	Progress reports on project	15 % by June 2009	2 Reports	No progress	Project not implemented as DWAF has not completed the hydro census due to budget constraints.
